About us //

About Us //

We are natural creativity. **Specialized 100% in innovative, creative and versatile plant decoration, in Greenarea we work since 2011 with the same passion for connecting nature and design.** We create sustainable green solutions that improve the quality of life and well-being in interior spaces and urban landscapes, all over the world, always with our Made in Spain green seal.

greenarea,
unique projects.

greenarea

Vision //

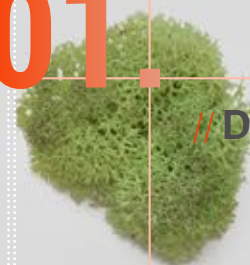

We experiment with nature, with stabilized natural products, to show it out with all its extension. Hand-made plant compositions that come to life on all types of walls, surfaces or as exclusive decorative elements. A commitment to offer the most suitable vegetable decoration for each client and / or space, developed in an integral way or in collaboration with the professionals required by each project. From Greenarea we accompany the entire creative process, execution and maintenance with maximum guarantees, professionalism and transparency.

Commitment //

The combination of natural elements, the delicate craftsmanship and the use of the most advanced and innovative techniques guarantee total commitment to our creations. This commitment leads us to the constant search for new materials, finishes, shapes... with the highest quality.

Projection //

**The Greenarea
 footprint
 has no limits!.**

Harmony //

We create natural and sustainable environments, in harmony with nature. With each decoration we help to transmit the benefits and sensations that nature brings both to the environment and to people, and with no need of special maintenance.

Vegetable decoration, that goes beyond aesthetics.
